

# The WHPS Weekly

Friday 20th May 2022

Dear Parents/ Carers,

Another busy week has come to an end, with two fantastic assemblies from Nursery and Year 1. Well done everyone– **You were amazing!**

We are looking forward to celebrations next week, with **International Evening** taking place on Tuesday , where we will be taken on a journey of different flavours, dances and songs from around the world. We will be marking our **Queens Platinum Jubilee** with a Picnic on Thursday.

Do not forget that school will close for Half Term holiday on Friday.

Have a wonderful weekend!

Sam Drake Headteacher

## EVENTS NEXT WEEK

<b>MONDAY:</b>	<b>Maths Workshop all day</b> <b>Seine Class Swimming PM</b> <b>3:45-4:45 Maths event for Parents/Carers</b>

<b>FRIDAY:</b>	<b>School Closed</b>

The Nursery children were amazing in their class assembly. They sang beautifully, played the claves like professionals and told the audience all about their learning.

There wasn't a dry eye in the house!

**A very big WELL DONE.**

Parents and carers were taken on a wonderful journey through the Year 1 learning. They started with Autumn where they visited Space, through to Spring where children were introduced to heroes and finally onto the Savanah this Summer. It was a wonderful assembly with lots of lovely singing and reading of English work.

**As part of International Evening, West End Lane books will be visiting WHPS on Tuesday before the event between 3:30-5:30, selling diverse books. There will also be an opportunity for families to discuss the type of books they would like to see in our book corners.**

**On Monday (23.05.22)**, all children in Y1-6 will be taking part in a maths workshop throughout the day. The workshops use carefully designed balls and rods, which allow children to create large 2D and 3D shapes from a basic cube to octahedrons and even an icosahedron (20 sided polyhedron). Using this equipment allows children to visualise and explore maths in away that are not normally possible in the classroom. By using shapes we can explore their properties, area, volume, fractions, measurements (standard and non standard) and arithmetic.

We've also been offered a last minute opportunity for a family maths session at the end of the day at 3:45pm. The workshop will finish at 4:45pm. Feel free to stay for as much of the hour as you'd like. Please [sign up for the event here](https://forms.gle/yPWMfXDFzYwq6PLp6) and meet us in the top floor hall at 3:45pm on Monday after school. Apologies for the short notice but it was an offer too good to refuse! We hope to repeat this event if it is a success.

### **The Mill Lane Bridge Project is finally going ahead after a two year delay!**

33 children from West Hampstead Primary School will be invited to participate and express their creativity.

We need parents to help us by collect sturdy plastic pots (500g/1kg) with lids and large 4pt milk cartons with lids. These will be used for carrying water and paints.

Please drop your washed pots and milk cartons at the school office.
